3RD MEIS WORKSHOP @ CVPR 2026

Multi-Agent Embodied Intelligent Systems

Meet Generative-AI Era

Opportunities, Challenges, and Futures

📍 **Wednesday, June 3, 2026 • Denver, CO, USA**

In conjunction with the IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR 2026)

Overview

The MEIS workshop focuses on **Multi-Agent Embodied Intelligent Systems** in the era of large vision–language and foundation models, aiming to understand how agents can collaborate with each other and with humans to act safely and effectively in complex real-world environments. We bring together researchers in **foundation models**, **multi-agent systems**, **simulation and evaluation**, and **human–agent interaction**, spanning real-world applications and core challenges in robustness, safety, explainability, and alignment.

Representative Topics

- Foundation models and architectures for cooperative embodied agents
- Multi-agent collaboration, communication, and decision-making
- Simulation platforms, datasets, and benchmarks for cooperative systems
- Human–agent interaction, safety, ethics, and interpretability

Important Dates

Archival Track		Non-Archival	
Submission:	10 March	Submission:	15 Apr
Notification:	15 March	Notification:	13 May

🏆 **Best Paper $400** | 🏆 **Best Paper Runner-Up $300** | 🏆 **Best Demo $300** | 🎙 **Oral Presentation**

Invited Speakers

Xiaopeng (Shaw) Li
UW-Madison

Siheng Chen
SJTU

Henry Liu
UMich

Bernadette Bucher
UMich

Jiachen Li
UC Riverside

Angela Dai
TU Munich

Bolei Zhou
UCLA

Marco Pavone
Stanford

Yangjia Huang
Axis Robotics

Manabu Tsukada
U of Tokyo

Organizers

Xiangbo Gao
Texas A&M

Yuheng Wu
KAIST

Dongman Lee
KAIST

Haibao Yu
HKU

Walter Zimmer
UCLA

Ross Greer
UC Merced

B. Bucher
UMich

Zilin Huang
UW-Madison

Yue Hu
UMich

Can Cui
Purdue

Yuping Wang
UMich

Zhiwen Fan
Texas A&M

Ziran Wang
Purdue

Yang Zhou
Texas A&M

Hao Yang
JHU

Rui Song
UCLA

Fangzhou Lin
Texas A&M

Zhengzhong Tu
Texas A&M

Program Committee

Xiangbo Gao, Yuheng Wu, Pardis Taghavi, Jiaru Zhong, Jiahao Wang, Abhishek Dharmaratnakar, Xiukun Huang, Zhengzhong Tu
